

President-elect Biden's Nomination for Transportation Secretary

PASS congratulates Pete Buttigieg on his nomination as DOT Secretary in the incoming Biden administration. We represent 11,000 employees at the Federal Aviation Administration (FAA) who protect, maintain and certify the largest, safest and most complex air traffic control system in the world. We look forward to working with Mr. Buttigieg to promote aviation safety and ensure that the FAA employees we represent have the resources, staffing and rights necessary to perform their safety critical work on behalf of the American people. We encourage the Senate to expeditiously consider and approve this nomination.
